

God Commands the Waters: (and everything in them)

We are fearful of this virus because it is unseen. Out of our sight. But God controls things that we cannot see. We will study this lesson together to encourage us all to remember that God is in control.

Examples of God's control:

1. God asked Job about his rivers in the deep (Job 38.16)
2. Frogs come out of the Nile (Ex 8.1.5)
3. Heaping waters, leads to dry crossings (Ex 14.21; Joshua 3.14ff)
4. Giant fish made to swallow a particular man (Jonah) (Mt 12.40)
5. First fish to a single hook with a specific coin in the mouth (Mt 17.24-27)
6. Large nets full of fish (Lk 5.1-7; John 20.1-6)

What does this mean for us?
