Happy Mother's Day to all of our mothers in attendance today (and to those who may be unable to be with us today as well).

I pray that you and your family can spend time together and enjoy each other's company on this day that is set aside for acknowledging mothers and all that they do here on earth. It is fascinating to think that when God designed this world and all that would live in it, He planned for there to be a female created for the role of mother. God crafted woman as a helper fit for man and her name was called "Eve" because she was the mother of all living. This is the first time this title is used and it is used to describe a woman in relation to her child or children (our dictionary definition). In the Hebrew, the name "Eve" sounds like the word for "life-giver" and resembles the word for "living."

The point is, when God created this position, He created it for a woman to serve in and for it to be a way for life to continue here on earth. That type of position comes with great responsibility and great expectations. Today, we examine what every mother needs and we hope that, as we study, our mothers are better equipped to serve in the God-created role they have been given and that we as children learn what God needs us to be for them.
