"God thunders wondrously with his voice; he does great things that we cannot comprehend. For to the snow he says, 'Fall on the earth,' likewise to the downpour, his mighty downpour." -- Job 37:5-6

There is a weird feeling that you get when you walk outside and feel temperatures that are diametrically opposed to the temperatures you had gotten used to feeling. Here in our state, a person could conceivably wear sneakers and shorts one day and need an extra layer two days later. Have you ever wondered why that is? As in, why are we so keenly aware of the temperature and amount of hours of sunlight and planting schedules, etc?

I believe that God knew we would be that way because He created us in His image. From the garden until now, God has truly cared about every individual that has ever walked on the planet. For this reason, God put within us a desire to know more about where we live and the things that are going on around us. It helps us to appreciate the careful attention God has given to the ecosystem that we live in and it helps us to remember to give thanks to Him for all that He continues to do (even when we don't thank Him for it enough.)

We are so excited for another year of "Friendsgiving" here at Rogersville church of Christ. It will be Monday, November 16th with plate prepping beginning at 4:00 P.M. There is a list posted at the three entryways for you to check and either add or take away names from.

We need your help! **Currently, we only need 3-4 more crockpots of mac and cheese. We typically deliver around 150 meals that night, so we will need lots of help prepping plates (4:00 P.M.) and then delivery drivers (beginning around 4:30 P.M.).** See Scott Wright with any questions.
